

CLASSICAL PREPARATORY SCHOOL

Traditional Education. Transformational Learning.

March 23, 2020

Dear Classical Preparatory School Families:

In March, Floridians will be receiving information about the 2020 Census. It's critical that every household respond so all persons residing in our state will be counted.

The results of the 2020 Census will help determine how hundreds of billions of dollars in federal funding flow into our communities and our schools every year through 2030. But Florida has a history of being undercounted in the census. This means our state could lose funds we desperately needed to help support important school programs over the next ten years.

Why the 2020 Census is Important

The 2020 Census will shape Florida's future for the next decade. Census data is used to determine Florida's fair share of billions of dollars in federal funds for public education, affordable housing, infrastructure, and more — as well as the number of seats Florida has in the House of Representatives.

These Programs Could Be Impacted

- School free and reduced-price meal program
- Funding for special education
- Title I
- Head Start
- After school programs
- Teacher training
- Health care
- Emergency funding during a natural disaster
- Programs for seniors
- And more...

July 31, 2020 is the last day for households to self-respond online, by phone or by mail.

Support Florida's future. Make sure you are counted by completing the 2020 Census.

For more information, visit 2020Census.gov.

Sincerely,

Classical Prep Administration
