

## Rising 4th Grade Summer Work 2022

Dear Parents/Guardians,

Among all the joyful relaxing, playing, and memory making that comes with summer break, it is important that we keep our minds and hearts strong and active!

We are excited to present to you the CPS Summer Work requirements for both reading and math for your rising fourth grader. The purpose of summer work at Classical Prep is to ensure mastery of skills taught throughout the school year, dive into great literature, and ensure and accelerate math skills. Ultimately, we want to provide this enrichment summer work to support the continued academic growth and success of our scholars. We can't wait to see how well they do in the year ahead!

### **Time Requirement**

Summer work will not take the entire day, nor the entire summer. It may be helpful to work with your child to develop a schedule/routine in which he/she will be able to work on the assignments over the entire summer. When we think about mastery, we often say, "meaningful practice over time." Therefore, it is not advised that you cram the assignments all in at the end of the summer.

*Scheduling Example:* Pick a four to six week block of time, pick four days in each of those weeks to allocate time to summer work, 20 minutes for reading and 10 minutes for math. For example, you could pick the first four weeks in June, Monday through Thursday. Maybe work on reading in the morning for 20 minutes, and math in the afternoon for 10 minutes. Make the schedule work for you and your family. The key is to try to be consistent in the routine.

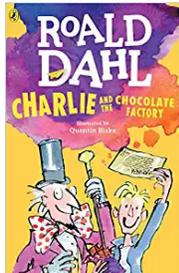

Both the reading and math summer work will be due on the first day of school (Wednesday, August 10). The reading assignment will count as a language arts homework and the math will count as a math homework assignment. Scholars who enroll after July 31st, 2022 are excused from this assignment (although we highly recommend reading the novel and practicing math facts regardless!).

We hope you have an enjoyable summer, and we can't wait to see you in August!

With love,  
The Fourth-Grade Teachers at CPS

## Rising 4th Grade Summer Reading 2022

Each rising 4th grader must read the required text (*Charlie and the Chocolate Factory* by Roald Dahl) and complete the accompanying assignment. This will be due on the first day of school (Wednesday, August 10th). Scholars will discuss the summer reading text as a class when they return to school in August, so teachers are expecting scholars to do this assignment well in order to contribute to class discussions and potentially complete other assignments.

REQUIRED READING (We've included the link for purchase should you want to add it to your family's personal library.)

## Rising 4th Grade Summer Math

Basic math facts are the foundation of mathematics. Scholars won't be able to grasp more deep and challenging math concepts without mastery of their math facts! We want our scholars to love math, and this is the first and most critical step towards that end. Mastering something takes a lot of practice and dedication, so thank you, families, for continuing this good work during the summer months!

Math fact practice can and should be fun! Make it a challenge to beat the clock or mom or big brother. Practice with dice or dominos. Practice them backwards and forwards, upside-down and with eyes closed! Make it a race! However you can encourage your child to have fun learning their facts, we implore you to do so.

### **DIRECTIONS for MATH FACT PRACTICE SUMMER WORK:**

1. *Math fact practice should take no more than 10 minutes per day! :]*
2. Make or purchase a set of multiplication AND Division flashcards (like [THESE](#) and [THESE](#)). Practice the flashcards for **five** minutes.
3. Work through the provided math packet. We recommend one page per day.

### **OPTIONAL:**

#### **IXL Practice- [Summer IXL Parent Handout](#)**

Re-enrolling scholars will continue to have access to their IXL account for the summer. While it is not required, we know how many scholars enjoy IXL, and there is such good practice within the platform! Use it while you can!

- **Note:** Don't forget to have your child "pinpoint" his/her math skills level by stepping into the arena at the beginning of their IXL time! After this, he/she can head into the skills practice section. The recommended skills will correlate to their math skill level and progressively get more challenging and skills are mastered!

# Stay sharp this summer on IXL!

We've used IXL to reinforce our curriculum this year, and your child will continue to have access to the online program over the summer. With thousands of interactive skills, IXL is a fun way for your child to keep their learning fresh.

## DID YOU KNOW?

Studies have found that students lose one to two months of math and reading skills over the summer. Use IXL to encourage your child to continue learning!

## HOW DO I FIND SKILLS TO WORK ON?

1. Sign in to your child's account at [www.ixl.com](http://www.ixl.com)
